I. PURPOSE

The Energy Information Administration (EIA) Form EIA-804, "Weekly Imports Report," is used to collect data on petroleum imports pursuant to Section 13(b) of the Federal Energy Administration (FEA) Act of 1974, Public Law 93-275.

The data appear in the Energy Information Administration (EIA) publication, *Weekly Petroleum Status Report*.

II. WHO MUST SUBMIT

The Form EIA-804 must be completed by importers of record selected by the EIA who import crude oil or petroleum products into the 50 States and the District of Columbia from foreign countries, Puerto Rico, the Virgin Islands, and other U.S. possessions. In the case of shipments from Puerto Rico, the Virgin Islands and other U.S. possessions to the 50 States and the District of Columbia, the EIA-804 must be completed by the exporter named on the U.S. Department of Commerce Form 7525-V, "Shipper's Export Declaration." A report is required even if no imports were made during the report week. Companies are selected into the EIA weekly sample according to a procedures that assures coverage of 90 percent of each information element published in the *Weekly Petroleum Status Report*.

Report all imports of crude oil and petroleum products that occurred during the report week. Definitions of petroleum products and other terms are also provided for your use. Please refer to these definitions before completing the survey form.

Report all quantities to the nearest whole number in **thousand barrels** (42 U.S. gallons/barrel). Quantities ending in 499 or less are rounded down, and quantities ending in 500 or more are rounded up (e.g., 106,499 barrels are reported as 106 and 106,500 barrels are reported as 107). Report import quantities corrected to 60 degrees Fahrenheit (°F) less basic sediment and water (BS&W).

Report data only for those PAD Districts which are applicable to your operation. If the quantity for a category for which you usually report data is zero, please enter "0". Shaded cells on the form are those in which data are not currently required to be reported.

The Office of Legal Counsel of the Department of Justice concluded on March 20, 1991, that the Federal Energy Administration Act requires the Energy Information Administration to provide company-specific data to the Department of Justice, or to any other Federal agency when requested for official use, which may include enforcement of Federal law. The information contained on this form may also be made available, upon request, to another component of the Department of Energy (DOE), to any Committee of Congress, the General Accounting Office, or other Congressional agencies authorized by law to receive such information. A court of competent jurisdiction may obtain this information in response to an order.

Upon receipt of a request for this information under the FOIA, the DOE shall make a final determination whether the information is exempt from disclosure in accordance with the procedures and criteria provided in the regulations. To assist us in this determination, respondents should demonstrate to the DOE that, for example, their information contains trade secrets or commercial or financial information whose release would be likely to cause substantial harm to their company's competitive position. A letter accompanying the submission that explains (on an element-by-element basis) the reasons why the information would be likely to cause the respondent substantial competitive harm if released to the public would aid in this determination. A new justification does not need to be provided each time information is submitted on the form, if the company has previously submitted a justification for that information and the justification has not changed.
